

GRASSES OF TELANGANA

e-Publication - ISBN: 978-81-958726-4-0
Authors: Nagaraju Siddabathula & P. V. Prasanna

Present book (e- publication) on 'Grasses of Telangana State' is an outcome of survey and taxonomic studies on grass flora of Telangana carried out during 2017-2022 as in-house scientific project of Botanical Survey of India. Field explorations and critical studies have resulted in documenting 273 species belonging to 95 genera. 1 new species to science and 41 new distributional records to the state are the salient findings of the present work. Other notable feature of this book is 163 meticulously designed colour photo plates which vividly portray the miniature spikelet parts which attract the attention of the reader. Besides, workable diagnostic keys, citation, descriptions, phenology, distributional and field notes are provided for each species. This book is intended to elicit interest in amateurs, students, forest managers, researchers and plant lovers in recognising the grasses in field and make the grass identification a pleasant experience.
